Professional Experience

2024-05 - Present	Frontend Developer Neoway As a front-end developer, I work on the development of a robust design system using Lit, focusing on accessibility and user experience. I maintain the company's component library, providing reusable and practical solutions to facilitate developers' work. Additionally, I use Vue.js in other projects to create efficient and integrated interfaces.
2023-03 - 2024-05	Frontend Developer Dione As a senior developer, I worked with ReactJS and Svelte in developing interactive interfaces, applying best design practices to create engaging experiences. I also managed a team of junior developers, providing technical support and guidance to ensure project quality and efficiency.
2018-01 - 2023-05	Frontend Developer & UI/UX UFPE In the partnership project with the Recife City Hall (Reciprev), I worked as a UFPE scholar, playing an important role in front-end development and web design. I was responsible for creating interactive and responsive interfaces, using best design practices and the latest front-end technologies such as HTML, CSS, and JavaScript. I also developed UX (User Experience) strategies to provide a quality user experience.
2021-06 - 2023-02	Frontend Developer Avanade As a mid-level developer, I had the opportunity to use various technologies in my work, including SAPUI5 for developing robust enterprise applications, FIORI for usability testing and improving user experience, and implementing DEVOPS practices to ensure quality and efficiency in the development process.
2021-01 - 2021-06	Frontend Developer Tascom - Tecnologia em Saúde As a junior developer at TASCUM Informática, I had the opportunity to work with ReactJS, using agile methodologies and tools like Trello for Kanban-style project management. I was also responsible for design work, using Photoshop and Figma to create user interfaces (UI) and user experience (UX).
2020-06 - 2021-01	Frontend Developer & UI/UX HAUT Incorporadora Design During my internship at HAUT, I had the opportunity to learn and enhance my skills in ReactJS and prototype development using Figma. During this period, I applied UI and UX concepts to create intuitive and attractive interfaces.

Education

2020-01 - Present

Bachelor's Degree in Information Systems

Centro de Informática, Recife - PE Expected graduation: December 2024

Skills

- Html5
- CSS3
- Sass
- Javascript
- Typescript
- ReactJS
- SvelteJS
- VueJS
- NodeJS
- SAPUI5
- LitElement
- Wordpress
- Figma
- Adobe Photoshop
- Adobe XD

About Me

Front-end developer with extensive experience in modern web development technologies such as JavaScript, TypeScript, React, Svelte, Vue, and LitElement. I have a strong passion for UI/UX design, ensuring that every interface I develop not only meets technical standards but also provides a seamless user experience. My career has been focused on creating efficient and scalable interfaces, emphasizing design system standardization and maintenance. Additionally, I have experience in complex environments such as SAPUI5 and WordPress, delivering robust and integrated projects.
